

Gentle Landing Midwifery and Birth Center

Our Philosophy

We believe the Midwifery Model of Care is the gold standard of maternity care. The goal of the midwifery model of care is to support birthing people and their families in the process of birthing their babies safely, unhindered and with confidence. Every birthing person deserves access to the high quality, safe, personalized, attentive, affordable, and respectful care of a midwife. Personalized care is foundational to midwifery care.

We commit to promoting normal, low-risk, physiologic birth. We affirm the power and strength of birthing people and the importance of their health in the well-being of families, communities, and nations. We believe in the basic human rights of all persons, recognizing that people with female reproductive organs often incur an undue burden of risk when these rights are violated.

Our model of care uniquely blends the person-centered philosophies of traditional midwifery and nurse-midwifery.

Our model of care includes:

- Monitoring the physical, psychological, and social well-being of the mother throughout the childbearing cycle
- Providing the mother with individualized education, counseling, and prenatal care, continuous hands-on assistance during labor and delivery, and postpartum support
- Minimizing technological interventions
- Identifying and referring women who require obstetrical attention

We believe every person has a right to:

- Equitable, ethical, accessible quality health care that promotes healing and health
- Health care that respects human dignity, individuality and diversity among groups
- Complete and accurate information to make informed health care decisions
- Self-determination and active participation in health care decisions
- Involvement of a birthing person's designated family members, to the extent desired, in all health care experiences

Our Mission

After the verb to love, to care is the most beautiful verb in the world. Gentle Landing Midwifery provides CHOICE IN CARE for people seeking partnership in full-scope midwifery and childbirth services. Our CARE is heart-centered and rich with time and education. We value our community and strive to offer you holistic and loving care.
